You will find these accessories in the package box.

Antenna cable (1)

Video cable (1)

Audio cable (1)

Remote control (1)

Operating instructions (1)

Please read the information on pages 2 and 3 of the Operating Instructions before installing or operating your DVD player/VCR.

1

Installing Batteries in the Remote Control

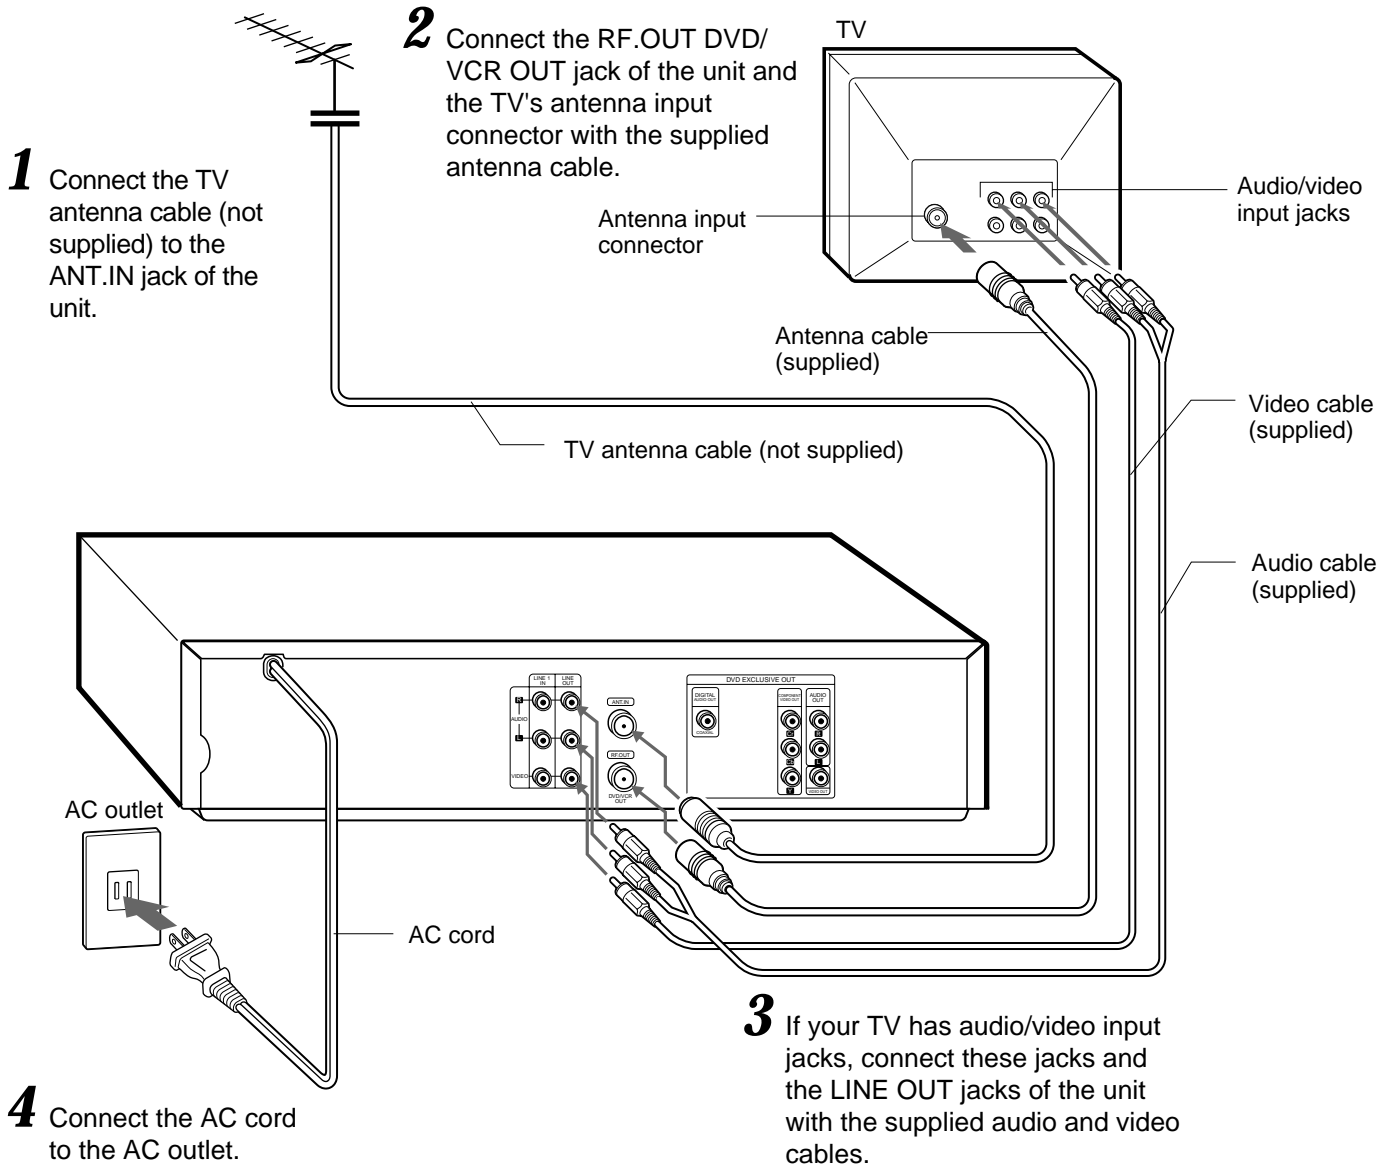

Insert two R03 (size AAA) batteries (not supplied) with correct polarity, as indicated inside the battery compartment.

2

Connection

Basic connections

Important

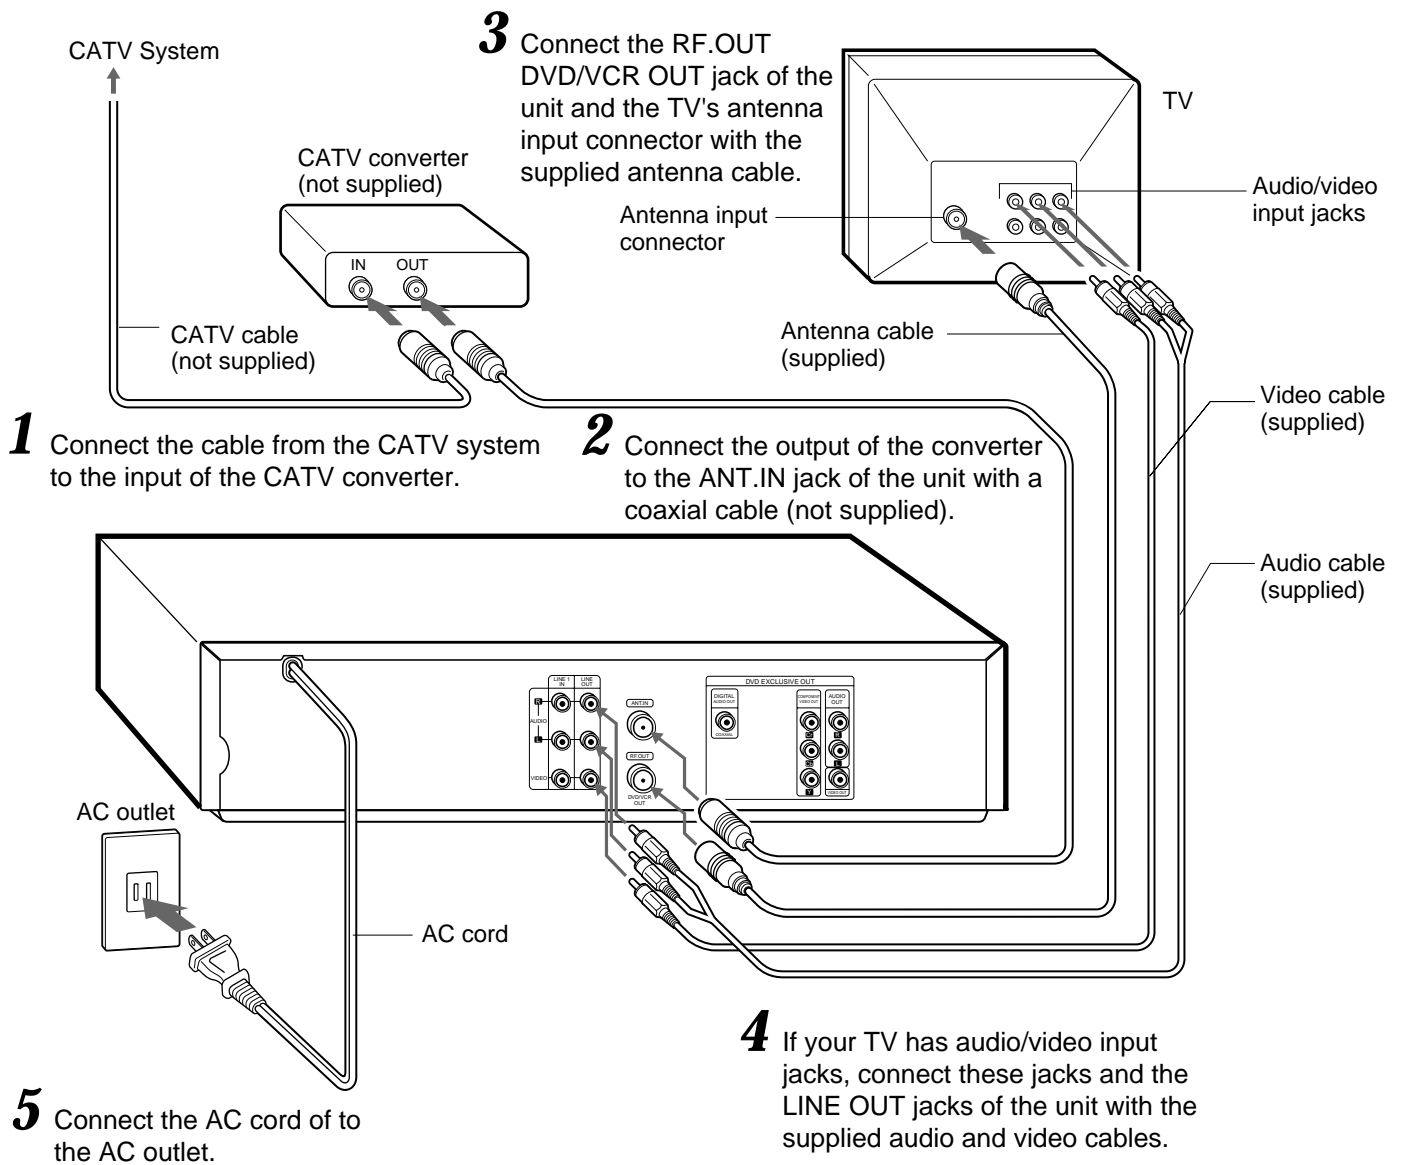

Connect the AC cord to the AC outlet after all connections are complete.

When the TV is connected to the unit only with the antenna cable

You need to set the unit's RF output channel to a channel that is not used for broadcasts in your area. The default is channel 3. To change the RF output channel setting, make sure the AC cord is plugged in to the AC outlet, but keep the power turned off. Press and hold down either of the two CHANNEL buttons at the front of the unit until the display in the LCD changes. When displaying the output from this unit on the TV, select this channel on the TV.

CATV connections

To connect to a CATV system without a CATV converter

Connect the cable from the CATV system to the ANT.IN jack of the unit in step 1 above.

If the program tuned in on the TV is not displayed clearly

Press TV/VCR on the remote control to turn off "VCR" in the display window, or turn off this unit.

To display TV or video program output from the unit

Press TV/VCR on the remote control to display "VCR" in the display window.

3

Setting the menu language

The on-screen menu can be displayed in English, Spanish, or French. The default language is English. Skip this step if you do not need to change it.

1  Press **POWER** to turn on the unit.

2  Press **VCR**.

3  Press **SETUP MENU**. Press **▲** or **▼** to select VCR SETUP, then press **ENTER**.

	SET CLOCK
	TIMER RECORD
	CHANNEL SETUP
