Fast, Efficient, Easy Clean Up

LG's innovative EasyClean™ function provides a quick, efficient, effortless way to clean your oven. Using lower temperatures, a revolutionary interior, and water, simply wipe away the mess after only 20 minutes. Got a really big mess? The full self clean is still available to tackle those heavy duty clean up jobs.

Expand Your Options

The size of your oven shouldn't dictate what you can cook or for how many people. This Large-Capacity Oven gives you more space so you have the flexibility to cook more dishes at the same time. One of the largest oven capacities available at 6.3 cu. ft.

Bake and Roast Like a Pro

Great cooking takes time, but at least with this oven it takes less time. The True Convection Oven lets you pre-heat faster and provides even baking and roasting for delicious results.

The Smart Touch

Easy to use and easy to clean, the IntuiTouch™ Control System makes operating your range a snap. The left side of the panel mirrors the cooktop elements, while the right side controls the oven functions.

Boil Faster

LG's fastest boiling element offers the most powerful element in the market at 3200 watts*

*among leading brands, non-induction elements
