TOSHIBA

TLP-T50/S30

Hard working projectors

easy on your pocket.

There's no need to settle for less when you're looking for real value. With these two stars you'll find the features that count in a projector at a down to earth price.

At 2.2kg they're extremely portable, which means you can take them wherever your audience demands. Their brightness will impress too. 1400 ANSI lumens will deliver a sparkling presentation, even in a lit meeting room.

You'll be stunned by the sharpness of the images. The TLP-S30 gives great results with SVGA resolution and the TLP-T50's XGA resolution takes things that bit further again.

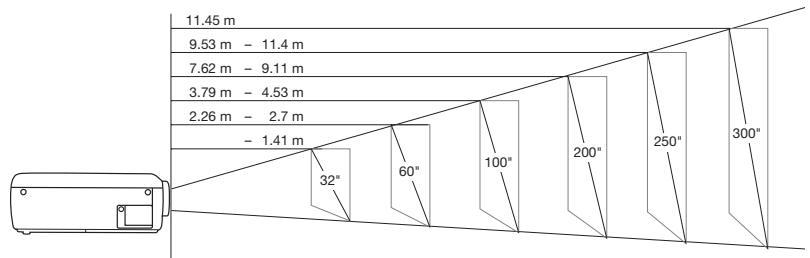

And there'll be minimum impact on your budget down the line. Lamp life is 2000 hours and both projectors come with Toshiba's 3 year warranty, so we'll pick up, repair and return free of charge. Each is data and video compatible and incorporates a built in speaker.

The TLP-S30 and TLP-T50; top quality projectors that are light on your wallet.
