Rechargeable Battery **B**

Charge the rechargeable battery before using it for the first time.

- Insert the supplied rechargeable battery NH-10WM into the rechargeable battery compartment with correct polarity.
- Connect the supplied AC power adaptor to the charging stand, plug in the AC power adaptor to the house current (mains).
- Place the main unit on the charging stand. The CHARGE lamp will light up. Full charging takes about 6 hours.

Note

- Do not use the unit while charging. Remove the unit from the charging stand when using it.
 - If you operate the unit while charging, the battery will not be charged.
 - If you operate the unit while charging, it may cause malfunction.
- Do not place the unit on the charging stand without the rechargeable battery. Otherwise, it may cause malfunction.

Notes on the AC power adaptor

- Use only the supplied AC power adaptor. Do not use any other AC power adaptor.

- Connect the AC power adaptor to an easily accessible AC outlet. Should you notice an abnormality in the AC power adaptor, disconnect it from the AC outlet immediately.
- Do not touch the AC power adaptor with wet hands.

Replace or charge the battery when " " flashes.

Note

- After the battery is replaced, the setting of the SOUND and MODE buttons will be erased.

Precautions

On charging

- The supplied charging stand can be used only with this unit. No other model can be charged using this stand.
- Remove the AC power adaptor from the wall outlet as soon as possible after the rechargeable battery has been charged. Overcharging may damage the rechargeable battery.
- The charging stand and the rechargeable battery may become warm during charging, but this is not a problem.
- Do not tear off the film on the rechargeable battery.
- Use only the supplied charging stand to charge the supplied rechargeable battery.
- Be sure not to short-circuit the battery. When you carry it with you, use the supplied carrying case. If you are not using the case, do not carry the battery with other metallic objects such as keys, rings in your pocket.
- If the rechargeable battery is new or has not been used for a long time, it may not be charged completely until you use it several times.

On batteries

- Do not charge a dry battery.
- Do not carry the dry or rechargeable batteries with coins or other metallic objects. It can generate heat if the positive and negative terminals of the batteries are accidentally contacted by a metallic object.
- When you do not use the Walkman for a long time, remove the battery to avoid any damage caused by battery leakage and subsequent corrosion.

On handling

- Do not leave the unit in a location near heat sources, or in a place subject to direct sunlight, excessive dust or sand, moisture, rain, mechanical shock, or in a car with its windows closed.
- The LCD display may become hard to see or slow down when using the unit at high temperatures (above 40°C/104°F) or at low temperatures (below 0°C/32°F). At room temperature, the display will return to its normal operating condition.
- We do not recommend the use of tape longer than 90 minutes. They are very thin and tend to be stretched easily. This may cause malfunction of the unit or sound deterioration.
- If the unit has not been used for long, set it in the playback mode to warm up for a few minutes before you start using again.

On the remote control

Use the supplied remote control only with this unit.

On headphones/earphones

Road safety

Do not use headphones/earphones while driving, cycling, or operating any motorized vehicle. It may create a traffic hazard and is illegal in some areas. It can also be potentially dangerous to play your headphones/earphones at high volume while walking, especially at pedestrian crossings. You should exercise extreme caution or discontinue use in potentially hazardous situations.

Preventing hearing damage

Do not use headphones/earphones at high volume. Hearing experts advise against continuous, loud and extended play. If you experience a ringing in your ears, reduce volume or discontinue use.

Caring for others

Keep the volume to a moderate level. This will allow you to hear outside sounds and to be considerate to the people around you.

On maintenance

- Clean the tape head and tape path, using a cotton swab and commercially available cleaning solvent after every 10 hours of use.
- To clean the exterior, use a soft cloth slightly moistened in water. Do not use alcohol, benzine or thinner.
- Clean the headphones/earphones and remote control plugs periodically.
- Clean the battery case terminals **D-①** (both inside and outside) and the terminals **D-②** periodically with a cotton swab or soft cloth as illustrated.
